Answer clinical questions with UpToDate

1. Enter a word or phrase in the New Search box.
   The more specific your search, the more likely it will return the desired results.

   - Modify your user name and password or update your account information.
   - View Practice Changing Updates (PCUs).
   - Learn “What’s New” by specialty.
   - Review list of topics within each specialty.
   - Access patient education to share with your patients.
   - Access drug interactions program, in partnership with Lexicomp®.
   - Calculate many different medical measures.
   - Personalize your view by collapsing or expanding results or hiding the topic outline.

2. Review Search Results.
   Enhanced search results display the topics, sections, and graphics that are most likely to answer your clinical question.

   - Accrue free CME/CE/CPD credits.
   - Email topics to your colleagues or patients.
   - Print text, references, graphics or the entire topic.
   - Access patient education to share with your patients.
   - Use the Find tool to search for a word or synonym within a topic.
   - Click to view a Medline abstract with full text when available.
   - Provide valuable feedback by submitting questions and comments to our editors.

3. Research the Topic.
   Over 10,000 evidence-based medical topics provide the information you need for optimal patient care.

   - View a detailed outline within each topic.
   - Click to go directly to summary and treatment recommendations.
   - Click on a heading to go directly to the information you need.
   - View all Graphics associated with a topic in a thumbnail format.
   - Link to information about authors and editors.
   - View the date that the topic was last modified, based on continuous review of the latest research.
   - View all Graphics associated with a topic in a thumbnail format.
   - Access related topics to find additional information.
